Every Consumer should become the messenger of noble initiative of Food Fortification –Prof. S.K. Sood-President Food Scientist and Technologist (India)

Food Fortification processes need to be standardized to optimize its Benefits –Dr.Vijay Kale-Retd. Scientist, IICT

Mr. Shyam Sunder loya of Shri Sarwo Nataraj Agro India Ltd also graced the occasion.

June 30: Confederation of Indian Industries - Food and Agriculture Center of Excellence (CII-FACE), Global Alliance for Improved Nutrition (GAIN), and Consumer VOICE jointly launched “A drive against malnutrition” by holding a STAKEHOLDER’s Regional Workshop at Hyderabad with local support from Healthy Heart Foods and Illusionz Media India Private Limited.

In this well attended workshop speakers highlighted the need for Food Fortification and its importance for attacking malnutrition as well as life style related health issues. Mr. Ashim Sanyal Chief Operating Officer Consumer VOICE explained why food fortification for micronutrient deficiencies is the need of the hour, how it is done and which staple foods are targeted .

Food fortification is increasingly recognized as an effective complementary strategy to combat malnutrition. Staple food fortification, i.e. through the fortification of commonly consumed staples such as wheat flour, edible oil, milk and salt, offers an ideal mechanism to deliver critical vitamins and minerals, such as iron, folic acid, vitamins A, D, B12 and similar to large populations thereby slowly but surely building resilience resulting in positive health and nutritional outcomes. In India, there are several examples of staple food fortification with Iodised Salt being the most recognized public nutrition initiative of the Government of India.

There was a very active participation by audience from Industry, Trade, Commerce and Consumers including Mr.B.D. Lohiya of Healthy Heart Foods who provided his whole hearted support to this initiative. Media Representatives also attended this workshop in large number.

We request all our Media Friends to spread the message across.
